

Mohammad Naeimi

AI/ML Engineer · Data Scientist

Tehran, Iran | (+98) 933 351 1538 | mhmdnmi99@gmail.com | mhmdnmi.github.io | LinkedIn: MhmdNmi | GitHub: MhmdNmi

Education

Master of Science (M.Sc.) in Computer Software Engineering

Amirkabir University of Technology (AUT) - Tehran Polytechnic

Tehran, Iran

Sep. 2022 - Oct. 2024

Bachelor of Science (B.Sc.) in Computer Engineering

Isfahan University of Technology (IUT)

Isfahan, Iran

Sep. 2018 - Sep. 2022

High School Diploma in Natural Sciences Discipline

* National Organization for Development of Exceptional Talents (NODET)

Kashan, Iran

Sep. 2013 - Jun. 2017

Work Experience

AI Engineer

Tehran, Iran

TechnoLife

Oct. 2025 - PRESENT

- Performed data processing and exploratory data analysis (EDA) for multiple business use cases.
- Designed & Implemented recommender systems using collaborative filtering and content-based methods.
 - Developed back-end components with FastAPI and ExpressJS.
 - Exposed recommendation services via REST and GraphQL APIs.
 - Used MongoDB and Redis for storage and caching.
- Developed an automated product generation pipeline using web crawling and data extraction for e-commerce.
 - Automated product information aggregation, normalization, and catalog creation for online marketplace listings.
 - Improved product onboarding speed and reduced manual data entry efforts.
- Developed demand forecasting models for business and inventory planning using historical sales and product data analysis.
- Improved AI assistant features and optimized code efficiency.

AI Engineer

Tehran, Iran

SHATEL

Dec. 2024 - Jul. 2025

- Designed and implemented LLM evaluation workflows (benchmarks, metrics, and purpose-specific tests).
 - Improved model evaluation reliability and comparisons, and reduced assessment time by 75%.
 - Implementing benchmarks from state-of-the-art research papers, enabling systematic evaluation of LLMs.
 - Developed custom benchmarks and adapted open-source ones to company-specific use cases, enabling more targeted evaluation.
 - Evaluated more than 60 state-of-the-art open-source LLMs and in-house models to guide model selection and improvement.
 - Compared and documented performance across diverse benchmarks to guide model selection and deployment decisions.
- Built data storage solutions and scalable pipelines to process large-scale datasets.
 - Reduced manual preparation time by 40%.
 - Improved reproducibility and documenting metadata.
- Deployed and monitored LLMs on Linux servers.
 - Investigated and analyzed different deployment settings, gaining insights on cost, revenue, and profitability.
 - Optimized resource utilization of GPU servers by 50%.
 - Ensured reliable system performance in production environments.

Software Engineer

Kashan, Iran

MATNO

May. 2021 - Sep. 2022

- Developed and maintained scalable back-end services, serving thousands of requests daily.
 - Designed and Implemented back-end services from scratch, enabling smooth integration with front-end and external services.
 - Refactored existing legacy codebases, cutting technical debt and improving maintainability.
 - Implemented and optimized REST APIs, using Node.js (AdonisJS, NestJS) and Python (FastAPI, Django) frameworks.
 - Integrated relational (PostgreSQL, MySQL) & non-relational (MongoDB, Redis) databases into production-level systems.
- Deployed back-end services using Docker and CI/CD pipelines, ensuring reliable delivery and consistent environments.
- Created interactive data analytics dashboards using Metabase and SQL, enabling real-time monitoring of key business metrics.
- Developed automation tools using web scraping to streamline internal workflows and reduce repetitive manual processes.
- Implemented and deployed a Telegram bot to automate communication processes and improve service efficiency.

Skills & Tools

Knowledge

Machine Learning, Data Science, NLP, Recommender Systems, GNNs, GANs

Programming

Python, JavaScript/TypeScript, C/C++, SQL, PHP

Frameworks/Libraries

PyTorch, Scikit-Learn, Hugging Face, TensorFlow, OpenAI, NodeJS, AdonisJS, NestJS, Django

Databases

SQL(PostgreSQL, MySQL, Microsoft SQL Server), NoSQL(Redis, MongoDB)

Tools & Platforms:

Windows, Linux, git, Docker, VS Code

Languages

Persian (Native Proficiency), English (Full Professional Proficiency)

Research Experience

Research Assistant

Tehran, Iran

Data Science Research Laboratory, CE, AUT

Jun. 2023 - Aug. 2025

- Project: **Improving Fairness in Recommender Systems using Regularization**
- Designed and implemented ML models for fair and unbiased recommender systems using GNNs and loss regularization.
- Achieved measurable improvements in fairness metrics across multiple datasets.
- Preprint paper on novel loss functions for recommender systems.

Undergraduate Research Assistant

Isfahan, Iran

Game Theory and Mechanism Design (GTMD) Research Laboratory, ECE, IUT

Mar. 2022 - Sep. 2022

- Project: **Converting Genome to Gene Expression in Cancer Cells with CycleGAN**
- Applied GANs (CycleGAN) to biological data, converting genome information into gene expression patterns.
- Built data pipelines and ran large-scale experiments with datasets for cancer research.

Teaching Experience

Teaching Assistant

Tehran, Iran

Department of Computer Engineering, AUT

- **Web Search & Information Retrieval** Graduate Course (Fall 2023, Fall 2024)
- **Natural Language Processing (NLP)** Graduate Course (Spring 2024)

Teaching Assistant

Isfahan, Iran

Department of Electrical & Computer Engineering, IUT

- **Operating Systems** Undergraduate Course (Fall 2021)
- **Design & Analysis of Algorithms** Undergraduate Course (Spring 2021)
- **Basic Programming** Undergraduate Course (Fall 2019)

Certificates

Deep Neural Networks with PyTorch

Coursera - IBM

Online

Jul. 2023

Applied Machine Learning in Python

Coursera - University of Michigan

Online

May. 2021

Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning

Coursera - DeepLearning.AI

Online

Apr. 2021

Advanced Python programming and Object-oriented thinking course

Quera College (An Iranian programming training platform)

Online

Jan. 2019
