PROFESSIONAL SUMMARY

Associate Product Manager with 3+ years of experience across product discovery, startup advisory, go-to-market and process design. Currently on the product team at Charehban, a building-management platform serving 15,000+ residential units, where I write PRDs and user stories, design user flows in Figma and shaped the pricing and free-trial experience. Previously advised 10+ early-stage startups at Sharif University on idea validation, market assessment and MVP scope, and ran marketing campaigns that lifted repeat purchases by 25%. B.Sc. in Industrial Engineering from Sharif University of Technology.

EDUCATION

Sharif University of Technology

B.Sc. Industrial Engineering

Overall GPA 3.5

National Math Olympiad

- AI Product Management — Product Road
- Advanced Data Visualization and Analysis (Python, R)
- HR Business Partner (HRBP)
- Human Resource Management (HR Core) — edX
- Recruitment and Talent Acquisition — Coursera

INDUSTRY EXPERIENCE

Charehban

Apr 2025 – Present

- Work on a building-management platform serving 15,000+ residential units across 2,500+ active buildings.
- Write PRDs and user stories for new features and work directly with engineering and design from definition through delivery.
- Design wireframes and user flows in Figma.
- Designed the subscription and pricing experience: a 23-day free trial with no bank card required and sign-up in under 2 minutes, 3-, 6- and 12-month per-unit plans with 17% and 33% discounts, and a lifetime-license option.
- Designed a self-serve cost calculator that shows building managers the exact subscription cost by plan and number of units before purchase.
- Shaped how core features are presented to users: charge and expense management, resident communication, online voting between units, and the Charehban Assistant, which logs events from a plain-text description.
- Designed the About page to build trust, highlighting adoption metrics and the product's growth milestones.

PetFit

Apr 2025 – Present

- Discovered through customer interviews that the pet food product was perceived as ordinary and undifferentiated.
- Repositioned the product by adding a sauce and launching a supplement powder to increase differentiation and perceived value.
- Ran a sampling program and an SMS campaign to drive trial and re-engage existing customers.
- Tracked sales KPIs to measure the impact of each change.

Sharif University – Entrepreneurship Center

Feb 2023 – Mar 2026

- Advised 10+ early-stage startups on idea validation, market assessment and MVP design, working directly with founders.
- Designed customer interview guides based on past behavior rather than opinions or predictions, to uncover real demand.
- Helped teams identify their initial market and early adopters, and scope MVPs to the minimum features needed to test key hypotheses.
- Mapped execution plans for each venture, defining the operational activities, roles and hires needed at every stage.
- Supported founders in hiring for key roles, closing skill gaps and resolving team conflicts.

Part Gostar Pharma

May 2021 – Feb 2022

- Sold to corporate clients in the pharmaceutical B2B market.
- Redesigned team roles and structure, and introduced training and performance evaluation processes.

Evim

Nov 2020 – May 2021

- Ran a social media campaign with bloggers and a referral program, increasing average purchases by 25% among customers on a 50-day purchase cycle.
- Launched an in-store campaign with shelf design and shop-window posters, increasing sales by 9%.
- Ran a sampling campaign that achieved a 17% return rate.

TEACHING EXPERIENCE

Sharif University of Technology

Sep 2022 – Jul 2024

- Courses: Engineering Economics, Operations Research, Human Factors Engineering, Introduction to Entrepreneurship, Marketing.
- Led tutorials, supervised lab sessions, and co-authored course materials across multiple graduate and undergraduate levels.
