

# Mohsen Ebadpour

☎ (+98) 936-165-5805 | ✉ Ebp.Mohsen@gmail.com | 🌐 MohsenEbadpour

## Education

- **Ph.D. in Computer Engineering (Artificial Intelligence)** Sep. 2025  
till  
now
  - GPA: 4/4 (18.88/20) | Ranked 1<sup>st</sup> cumulative GPA
- **Master of Business Administration (strategy)** Dec. 2024  
till Dec.  
2025
- **M.Sc. in Computer Engineering (Artificial Intelligence)** Sep. 2021  
till  
Feb. 2024
  - GPA: 3.88/4.00 (18.47/20) | Ranked 2<sup>nd</sup> cumulative GPA
  - Thesis Title: “Few-Shot Learning and its application in Multi-Label Classification”
  - Supervisor: Dr. M.Rahmati, Professor of Computer Engineering
- **B.Sc. in Computer Engineering** Sep. 2017  
till  
Feb. 2021
  - GPA: 3.96/4.00 (19.31/20) | Ranked 1<sup>st</sup> cumulative GPA among 49 students
  - Project Title: “Windows Malware Detection Using Deep Learning”
  - Supervisor: Dr. Sh. Jamali, Professor of Computer Engineering

## Career & Work Interests

- Deep Learning
- Graph Neural Networks
- AgenticAI
- Large Language Model (LLM)
- Recommender Systems
- End-To-End Models

## Experience

- **Lead Data Scientist & AI/ML Engineer** Dec. 2024  
till Now.
  - ✓ Designed a personalized knowledge graph with memory-alignment capabilities for an AI-powered conversational assistant (a LLM-based layer via Mem0).
  - ✓ Provided technical mentorship and strategic guidance for the development of a text-to-speech system.
  - ✓ Developed anomaly-detection models to identify fraudulent and malicious user behavior.
  - ✓ Designed and implemented a content recommendation system based on a Two-Tower architecture.
  - ✓ Developed a real-time market data and automation pipeline for a FinTech platform.
  - ✓ Designed and developed an agentic customer-support chatbot integrated with CRM workflows.
  - ✓ Led the technical delivery of a social credit-scoring initiative.
  - ✓ Collaborated on the design and development of personalized advertising solutions.
  - ✓ Developed Graph Neural Network–based approaches for social network analysis and behavioral modeling.
- **Software & Data Science Developer** Oct. 2022  
till  
June 2024.
  - ✓ Contributed to community detection and classification tasks.
  - ✓ Collaborated on anomaly and fraud detection projects.

- ✓ Developed high-performance web APIs.
- **R&D Team Member and Data Science Developer** Jan. 2020  
till July 2021
  - ✓ Contributed to the development of a national automated dredging system for Shahid Rajaei Port.
  - ✓ Worked on a recommendation system for hydrography maps & images.
  - ✓ Developed a liquid velocity estimation system using image processing techniques.
  - ✓ Developed an automated attendance and human resource productivity system leveraging CCTV and computer vision.

Skills

- **Python** PyTorch, Scikit-Learn, NumPy, Pandas, SciPy, OpenCV, Seaborn, and Django
- **C#** .NET Core, .NET framework, Log4Net, Hangfire
- **Go Lang** Gin, GORM, Go Modules, and REST API development
- **Database** ClickHouse, PostgreSQL, TigerBeetle, Cockroach, SQL Server, and familiar with MongoDB
- **Data Stream** Apache Kafka, RabbitMQ, Apache redash, Apache Superset
- **Development** Git, CI/CD, ML-Flow, DVC
- **Deployment** Kubernetes, Flux CD, Docker, Docker-Compose, Helm
- **Soft Skill** Agile methodology, Leadership & Team Work, Creativity Thinking, Problem-Solving, R&D

Teaching Experience

|                                                       |                      |           |
|-------------------------------------------------------|----------------------|-----------|
| • <b>Neural Computing and Deep Learning</b> (Head TA) | Graduate Course      | Feb. 2024 |
|                                                       |                      | Feb. 2023 |
|                                                       |                      | Sep. 2022 |
| • <b>Machine Learning</b> (Head TA)                   | Graduate Course      | Sep. 2022 |
| • <b>Pattern Recognition</b> (Head TA)                | Graduate Course      | Sep. 2023 |
|                                                       |                      | Sep. 2022 |
| • <b>Digital Image Processing</b> (TA)                | Graduate Course      | Feb. 2023 |
|                                                       |                      | Feb. 2024 |
| • <b>Big Data Analytics</b> (Head TA)                 | Graduate Course      | Feb. 2024 |
| • <b>Complex Networks (GNNs)</b> (Head TA)            | Graduate Course      | Sep. 2024 |
| • <b>Database Lab</b> (Lecturer)                      | Undergraduate Course | Feb. 2022 |

Awards and Honors

- Commended reviewer and scientific secretary at the 32<sup>nd</sup> International Conference on Electrical Engineering (ICEE), published in IEEE. May 2024
- Member of the scientific committee of the 8<sup>th</sup> Amirkabir Artificial Intelligence Competition (AAIC) in intent detection and slot filling league. Oct. 2024
- Awarded distinguished student in the M.Sc. program and computer engineering dept. June 2023
- Ranked 2<sup>nd</sup> in the 7<sup>th</sup> Amirkabir Artificial Intelligence Competition (AAIC) in fraud detection league. May 2023
- Awarded distinguished student in the B.Sc. program and engineering dept. Feb. 2021
- Awarded Shahid Vezvaei fellowship in Iran's National Elites Foundation. Sep. 2020
