About

AI Engineer with an M.Sc. in Electrical Engineering (Control) and hands-on experience spanning LLMs, OCR, ASR, RAG-based systems, RL, time series analysis, and Computer Vision. Work ranges from chatbot design to autonomous vehicle perception, both in academia and industry, united by a drive to turn rigorous experimentation into systems that hold up in the real world. Author of 6 research papers, published or under review, and journal reviewer, always looking for the next hard problem worth solving.

Education

Master of Science in Electrical Engineering - Control

Iran University of Science and Technology (IUST) - Iran's 3rd University (Times 2024)

Tehran, Iran

2022 - 2024

M.Sc. Thesis: "Environment Reconstruction and Recognition through Neural Networks for Autonomous Vehicle Control in Adverse Weather Conditions"

Bachelor of Science in Electrical Engineering - Control

Iran University of Science and Technology (IUST)

Tehran, Iran

2018 - 2022

B.Sc. Thesis: "Intelligent Control of a Robot Arm by Eye Tracking for Severe Speech and Motor Impairment (SSMI)"

Work Experience

AI Engineer (OCR, ASR and Chatbot Solutions for Banking Systems)

Karafarin Negah Bank

Tehran, Iran

February 2026 - Present

AI Engineer (OCR and RAG Design in B2B platform)

Solico Group

Tehran, Iran

June 2025 - January 2026

AI Engineer (Lane Detection for Autonomous Vehicles)

Software Motion

Suzhou, China

September 2024 - June 2025

Projects

Arabic OCR System

Freelancer

Muscat, Oman

December 2025 - June 2026

Ultrasound Image Reconstruction from Single-Plane Wave RF Data

Iran's National Elites Foundation

Tehran, Iran

September 2021 - September 2023

Body Decomposition through Point Cloud Analysis

Patra Vison Systems

Tehran, Iran

February 2024 - July 2024
